#### INDEPENDENT AUDITOR'S REPORT

To the Board of Education of Bad Axe Public Schools

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Bad Axe Public Schools, as of and for the year ended June 30, 2004, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Bad Axe Public Schools' management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Bad Axe Public Schools as of June 30, 2004, and the respective changes in financial position, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued a report under separate cover dated July 27, 2004 on our consideration of the School District's internal control over financial reporting and our tests of compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages II - VIII and 18 are not required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Bad Axe Public Schools' basic financial statements. The accompanying other supplementary information, as identified in the table of contents, is presented for purpose of additional analysis and is not a required part of the basic financial statements. The other supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

LEWIS & KNOPF, P.C.

CERTIFIED PUBLIC ACCOUNTANTS

Bad Axe Public Schools, a K-12 school District located in Huron County, Michigan, is in its second year of implementation of the provisions of Governmental Accounting Standards Board Statement 34 (GASB 34) with the enclosed financial statements. The Administration's Discussion and Analysis, a requirement of GASB 34, is intended to be the Bad Axe Public Schools' Administration's discussion and analysis of the financial results for the fiscal year ended June 30, 2004.

Generally accepted accounting principles (GAAP) according to GASB 34 requires the reporting of two types of financial statements: District Wide Financial Statements and Fund Financial Statements.

#### **Fund Financial Statements:**

The School District's fund financial statements provide detailed information about the most significant funds – not the School District as a whole. Some funds are required to be established by State law and by bond covenants. However, the School District establishes many other funds to help it control and manage money for particular purposes (the Food Service and Athletics Funds are examples) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as bond-funded construction funds used for voter-approved capital projects). The governmental funds of the School District use the following accounting approach:

Governmental funds – All of the School District's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the School District and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net assets and the statement of activities) and governmental funds in a reconciliation.

In the fund financial statements, purchased capital assets are reported as expenditures in the year of acquisition. No asset is reported. The issuance of debt is recorded as a financial resource. The current year's payments of principal and interest on long term obligations are recorded as expenditures. Future year's debt obligations are not recorded.

#### **District Wide Financial Statements:**

The District wide financial statements are full accrual basis statements. They report all of the District's assets and liabilities, both short and long term, regardless if they are "currently available" or not. For example, assets that are restricted for use in the Debt Funds solely for the payment of long term principal or interest are grouped with unrestricted assets of the General Fund. Capital assets and obligations of the District are reported in the Statement of Net Assets of the District wide financial statements.

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The statement of net assets and the statement of activities, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

#### **District Wide Financial Statements:** (Continued)

These two statements report the Bad Axe Public Schools net assets – the difference between assets and liabilities, as reported in the statement of net assets – as one way to measure the School District's financial health or financial position. Over time, increases or decreases in the School District's net assets – as reported in the statement of activities – are indicators of whether its financial health is improving or deteriorating. The relationship between revenues and expenses is the School District's operating results. However, the School District's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District.

The statement of net assets and the statement of activities report the governmental activities for the School District, which encompasses all of the School District's services, including instruction, support services, community services, athletics, and food services. Property taxes, unrestricted State aid (foundation allowance revenue), and State and federal grants finance most of these activities.

#### The School District as Trustee - Reporting the School District's Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for its student activity funds and its private purpose trust funds. All of the School District's fiduciary activities are reported in a separate statement of fiduciary net assets. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

#### **SUMMARY OF NET ASSETS:**

The following summarizes the net assets at the fiscal years ended June 30, 2004 and 2003:

#### **NET ASSETS SUMMARY**

	2004	2003
<u>ASSETS</u>		
Current Assets	\$4,677,303	\$4,977,801
Non-Current Assets	10,190,435	10,404,707
TOTAL ASSETS	\$14,867,738	\$15,382,508
<u>LIABILITIES</u>		
Current Liabilities	\$1,388,752	\$1,623,989
Long-Term Liabilities	8,112,253	8,329,358
Total Liabilities	\$9,501,005	\$9,953,347
NET ASSETS		
Invested in Capital Assets - Net of Related Debt	2,013,185	1,842,457
Restricted - Debt Service	245,425	306,610
Unrestricted	3,108,123	3,280,094
Total Net Assets	\$5,366,733	\$5,429,161
TOTAL LIABILITIES AND NET ASSETS	\$14,867,738	\$15,382,508

#### RESULTS OF OPERATIONS:

For the fiscal years ended June 30, 2004 and 2003, the District wide results of operations were:

	2004	2003
<u>REVENUES</u>		
General Revenues:		
Property Taxes Levied for General Operations	\$1,246,953	\$1,218,462
Property Taxes Levied for Debt Service	676,289	659,220
State of Michigan Unrestricted Foundation Aid	7,809,232	7,799,365
Other General Revenues	67,510	123,142
Total General Revenues	\$9,799,984	\$9,800,189
Operating Grants:		
Federal	633,694	661,364
State of Michigan	513,914	314,981
Other Operating Grants	295,001	346,545
Total Operating Grants	\$1,442,609	\$1,322,890
Charges for Services:		
Food Service	233,249	233,866
Athletics	143,205	116,516
Other Charges for Services	108,290	34,065
Total Charges for Services	\$484,744	\$384,447
Total Revenues	\$11,727,337	\$11,507,526
EXPENSES		
Instruction & Instructional Support	6,866,688	7,013,322
Support Services	3,406,432	3,342,437
Community Services	17,159	0
Food Service	505,169	523,524
Athletics	385,487	316,409
Interest on Long-Term Debt	345,033	582,947
Depreciation	263,797	455,863
Total Expenses	\$11,789,765	\$12,234,502
(DECREASE) IN NET ASSETS	(\$62,428)	(\$726,976)
BEGINNING NET ASSETS	5,429,161	6,156,137
ENDING NET ASSETS	\$5,366,733	\$5,429,161

#### **GOVERNMENT- WIDE FINANCIAL ANALYSIS**

#### Analysis of Financial Position:

During the year ended June 30, 2004, the District's Total Net Assets decreased by \$62,428 to a total of \$5,366,733. This represents a 1% decrease over the prior year. The largest portion of the net assets are the districts investment in capital assets – net of related debt. These assets increased by \$170,728 for the year as new purchases and payments of debt exceeded depreciation. The districts Unrestricted Net Assets decreased by \$171,971 during the year and the restricted portion of the net assets decreased by \$61,185. The restricted Net Assets consist of the Investment in Capital Assets-net of related Debt, the restricted debt retirement funds that may only be used to pay bonded debt. The unrestricted net assets may be used to fund the educational services provided to students.

#### Analysis of Results of Operations

The district's overall expenses exceeded its revenues for the year by \$62,428. Total Revenues increased by \$219,811 or 2% over last years amounts. The major change was additional state aid. Expenses decreased during the year by \$444,737. Major changes were decreases in depreciation of \$192,066 and instructional support of \$146,634 (primarily administrative costs and capital outlay).

#### FINANCIAL ANALYSIS OF GOVERNMENT'S FUNDS – GOVERNMENTAL FUNDS

#### Analysis of Financial Position

The focus of the District's governmental funds is to provide information on near term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the district's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a governments net resources available for spending at the end of the fiscal year. An analysis of changes for the governmental funds is as follows:

#### General Fund

The district's general fund is the chief operating fund of the district. Unreserved fund balance for the general fund decreased by \$109,360 during the year with the decrease coming primarily from a reduction in cash. Revenues for the year increased by \$179,420, primarily from an increase in state aid. Expenditures and other financing uses for the year decreased by \$52,971, as salary and fringe benefit increases were offset by reductions in other operating costs. The major source of general fund revenues is state aid and taxes. An analysis of them is as follows:

#### 1. State of Michigan Unrestricted Aid (Net State Foundation Grant)

The State of Michigan aid, unrestricted, is determined with the following variables:

- a. State of Michigan State Aid Act per student foundation allowance
- b. Student Enrollment Blended at 80 percent of current year's fall count and 20 percent of prior year's winter count
- c. The District's non-homestead levy

#### 2. <u>Per Student, Foundation Allowance:</u>

Annually, the State of Michigan establishes the per student foundation allowance. The Bad Axe Public Schools foundation allowance was \$6,700 per student for the 2003-2004 school year, the same as the prior year. The foundation allowance was decreased by \$74 per student from \$6,700 to \$6,626 as the result of an executive order by the governor.

#### FINANCIAL ANALYSIS OF GOVERNMENT'S FUNDS – GOVERNMENTAL FUNDS (Continued)

#### Analysis of Financial Position (Continued)

#### **General Fund** (Continued)

#### 3. <u>Student Enrollment</u>:

The District's student enrollment for the fall count of 2003-2004 was 1,351 students. An increase of 1 student from the prior year.

#### 4. Property Taxes Levied For General Operations (General Fund Non-Homestead Taxes)

The District levies 18 mills of property taxes for operations (General Fund) on Non-Homestead Properties. Under Michigan law, the taxable levy is based on the taxable valuation of properties. Annually, the taxable valuation increase in property values is capped at the rate of the prior year's CPI increase or 5 percent, whichever is less. At the time of sale, a property's taxable valuation is readjusted to the State Equalized Value, which is, theoretically, 50 percent of the market value.

The District's non-homestead property tax revenue for the 2003-2004 fiscal year was \$1,246,953. An increase of \$28,491 from the prior year.

#### **Debt Retirement Fund**

The districts debt retirement fund balance decreased by \$61,185. The fund balance is restricted to use for payments on bonded debt. The funds had expenditures of \$747,429 in paying the required interest and principal payments of the schools bonded debt. The majority of the funds revenue is derived from tax collections. An analysis of them is as follows:

#### 1. <u>Debt Fund Property and Industrial Facility In Lieu of Taxes</u>

The District's debt fund levy, which is used to pay the principal and interest on bond obligations, is based on the taxable valuation of all properties: homestead and non-homestead. In addition, the District collects IFT (Industrial Facilities Taxes) In Lieu of Taxes that are essentially taxed at 50 percent of the regular tax rate.

For 2003-2004, the District's debt millage levy was 3.83 mills that generated revenue of \$686,244. An increase of \$33,368 from the prior year.

#### Special Revenue Funds

The districts special revenue funds provide food service and athletic opportunities to students. During the year the fund balances increased by \$2,888. Food service fund revenue increased by \$6,000 and expenditures decreased by \$21,000, primarily in purchased services.

#### **GENERAL FUND BUDGETARY HIGHLIGHTS:**

#### GENERAL FUND BUDGET VS. ACTUAL

				Variance Actual	
				& Original	Variance Actual
Fiscal Year	Original Budget	Final Budget	Actual	Budget %	& Final Budget %
Revenue	\$9,469,682	\$10,377,570	\$10,393,098	9.75	0.15
Expenditures	10,249,995	10,475,874	10,502,458	(2.46)	(0.25)
<u>TOTAL</u>	(\$780,313)	(\$98,304)	(\$109,360)		

#### **ANALYSIS OF BUDGETS:**

The Uniform Budget Act of the State of Michigan requires that the local Board of Education approve the original budget for the upcoming fiscal year prior to July 1, the start of the fiscal year.

As a matter of practice, Bad Axe Public Schools amends its budget during the school year. The June, 2004 budget amendment was the final budget for the fiscal year. There was a significant variation between the original and final budget. The original budget was prepared before the passage of the Michigan State Aid Act and therefore had lower revenue estimates.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

#### A. <u>Debt, Principal Payments</u>

The District made principal payments on bonded, long term debt obligations that reduced the amount of the District's long term liabilities as follows:

	Principal		Principal	Principal
	Balance	Increases	Payments	Balance
	7-01-03	6-30-04	6-30-04	6-30-04
Durant Bonds	\$52,250	\$0	\$0	\$52,250
2003 Refunding Bonds	8,510,000	0	385,000	8,125,000
Compensated Absences	152,108	82,895	0	235,003
Total Long-Term Bond Obligations	\$8,714,358	\$82,895	\$385,000	\$8,412,253

#### **CAPITAL ASSET AND DEBT ADMINISTRATION: (Continued)**

B. <u>Capital Assets</u>
The district's net investment in capital assets decreased by \$79,882 during the fiscal year. This can be summarized as follows:

	BALANCE			BALANCE
	JULY 1, 2003	ADDITIONS	DEDUCTIONS	JUNE 30, 2004
Capital Assets	\$16,015,630	\$183,753	(\$67,195)	\$16,132,188
Less: Accumulated Depreciation	(5,610,923)	(376,741)	(45,911)	(5,941,753)
Net Investment Capital Outlay	\$10,404,707	(\$192,988)	(\$113,106)	\$10,190,435

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens and taxpayers with a general overview of the District's finances. If you have questions about this report or need additional information, contact the Business Office, Bad Axe Public Schools.

### $\frac{\text{BAD AXE PUBLIC SCHOOLS - BAD AXE, MICHIGAN}}{\text{RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES}}$

#### AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS

### TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2004

Total net change in fund balances - governmental funds	(\$167,657)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation in the current period exceeded capital outlay.	(214,272)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount of repayments reported as expenditures in the governmental funds.	385,000
(Increase) in Compensated Absences	(82,895)
Change in accrued interest on long-term liabilities	17,396

(\$62,428)

#### 1) <u>REPORTING ENTITY</u>

The accompanying basic financial statements have been prepared in accordance with criteria established by the GASB for determining the various governmental organizations to be included in the reporting entity. These criteria include oversight responsibility, scope of public service, and special financing arrangements. Based on application of the criteria, the entity does not contain component units.

The District receives funding from local, state, federal and interdistrict government sources and must comply with the accompanying requirements of these funding source entities. However, the District is not included in any other governmental "reporting entity" body that has separate legal standing and is fiscally independent of the governmental entities. As such, the Board of Education has decision-making authority, the authority to levy taxes, and determine its budget, the power to designate management, the ability to significantly influence operations and primary accountability for fiscal matters.

#### 2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Bad Axe Public Schools conform to generally accepted accounting principles as applicable to school districts. The following is a summary of the significant accounting policies:

In June 1999 the Governmental Accounting Standards Board (GASB) issued Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. Certain of the significant changes in the Statement include the following:

A Management Discussion and Analysis (MD&A) section to provide an analysis of the District's overall financial position and results of operations.

Financial statements prepared with full accrual accounting for all of the District's activities.

A change in the fund financial statements to focus on the major funds.

These and other changes are reflected in the accompanying financial statements and notes to the financial statements.

#### A) BASIC FINANCIAL STATEMENTS – GOVERNMENT-WIDE STATEMENTS

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). The government-wide financial statements categorize primary activities as either governmental or business type. All of the District's activities are classified as governmental activities. Fiduciary funds are not included in the government-wide financial statements.

In the government-wide Statement of Net Assets, the governmental activities column is presented on a consolidated basis and is reported on a full-accrual economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net assets are reported in three parts: invested in capital assets net of related debt; restricted net assets; and unrestricted net assets. The District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions. General government revenues also support the functions. The Statement of Activities reduces gross expenses by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary grants. The net costs by function are normally covered by general revenue (property taxes, state and federal sources, interest income, etc.).

The District does not allocate indirect costs. Inter-fund transactions have been eliminated in the government-wide financial statements.

#### 2) <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

#### B) BASIC FINANCIAL STATEMENTS - FUND FINANCIAL STATEMENTS

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the general-purpose financial statements in this report, into five generic fund types in two broad fund categories as follows:

#### Governmental Funds

Governmental funds are those funds through which most school district functions typically are financed. The acquisition, use, and balances of the District's expendable financial resources and the related current liabilities are accounted for through governmental funds.

#### General Fund

The General Fund is used to record the general operations of the District pertaining to education and those operations not provided for in other funds. Included are all transactions related to the approved current operating budget.

#### Special Revenue Funds

Special Revenue Funds are used to segregate the transactions of particular activities from regular revenue and expenditure accounts. The District maintains full control of these funds. The District maintains two school service funds: Food Service and Athletic Funds.

#### Debt Retirement Fund

The Debt Retirement Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

#### Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The District's fiduciary funds consist of agency funds which are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The agency funds are used to account for amount held for student and employee groups.

#### C) BASIS OF ACCOUNTING/MEASUREMENT FOCUS

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types and expendable trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

#### Accrual

Governmental activity in the government-wide financial statements is presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

#### 2) <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

#### C) BASIS OF ACCOUNTING/MEASUREMENT FOCUS (Continued)

#### Modified Accrual

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt is recognized when due.

Those revenues susceptible to accrual are property taxes, state aid, interest revenue, grants and charges for services. Other revenue is recorded when received.

The District reports deferred revenue on its governmental funds balance sheet. Deferred revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when the District receives resources before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

#### D) CASH AND CASH EQUIVALENTS

The District considers highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Investments are reported at fair value which is determined using selected bases. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national exchange are valued at the last reported sales price and investments that do not have an established market are reported at estimated fair value. Cash deposits are reported at carrying amount which reasonably estimates fair value.

#### E) PREPAID ASSETS

Payments made to vendors for services that will benefit periods beyond June 30, 2004, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

#### F) INVENTORY

On government-wide financial statements are stated at cost and are expensed when used.

On fund financial statements inventories are stated at cost. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased.

#### G) CAPITAL ASSETS

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

#### 2) <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

#### G) <u>CAPITAL ASSETS</u> (Continued)

All capital assets are capitalized at cost (or estimated historical cost) using a \$5,000 capitalization threshold and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of one hundred dollars. The School District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an assets life are not. Interest incurred during the construction of capital assets is also capitalized.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities  Estimated Lives
Buildings and Improvements Furniture and Equipment	20 – 50 years 5 – 10 years
Vehicles and Buses	5 years

#### H) INTERFUND BALANCES

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental activities columns of the statement of net assets.

#### I) COMPENSATED ABSENCES

The School District reports compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences." Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts, if any, are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

#### J) ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

#### 2) <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

#### J) ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS (Continued)

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgements, the noncurrent portion of capital leases, compensated absences, contractually required pension contributions and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

#### K) FUND BALANCE RESERVES

The School District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for inventories.

#### L) NET ASSETS

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

#### M) ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles generally requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### N) BUDGETARY DATA

The budgetary process is prescribed by provisions of the State of Michigan Budget Act and entails the preparation of budgetary documents within an established timetable. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control has been established by the Board of Education at the function level. Any budgetary modifications may only be made by resolution of the Board of Education.

The School District follows these procedures in establishing the budgets for the individual funds as reflected in the financial statements.

- 1) Prior to June 30, the Superintendent submits to the School Board a proposed operating budget for the fiscal year commencing on July 1.
- 2) A public hearing is conducted during June to obtain taxpayer comments.
- 3) Prior to June 30, the budget is legally enacted through passage of a resolution.
- 4) For purposes of meeting emergency needs of the School District, transfer of appropriations may be made by the authorization of the Superintendent. Such transfers of appropriations must be approved by the Board of Education at its next regularly scheduled meeting.

#### 2) <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

#### N) <u>BUDGETARY DATA</u> (Continued)

- 5) The School Superintendent is charged with general supervision of the budget and shall hold the department heads responsible for performance of their responsibilities.
- 6) During the year the budget is monitored, and amendments to the budget resolution are made when deemed necessary.

#### 3) STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY – BUDGET VIOLATIONS

P.A. 621 of 1978, Section 18 (1), as amended provides that a local unit shall not incur expenditures in excess of the amount appropriated.

In the body of the financial statements, the District's actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional basis. The approved budgets of the District for these budgetary funds were adopted to the activity level.

During the year ended June 30, 2004, the District incurred expenditures in certain budgetary funds which were in excess of the amounts appropriated.

#### 4) DEPOSITS AND INVESTMENTS

Michigan Compiled Laws, Section 129.91, authorizes the District to deposit and invest in the accounts of Federally insured banks, credit unions, and savings and loan associations; bonds, securities and other direct obligations of the United States, or any agency or instrumentality of the United States; United States government or Federal agency obligation repurchase agreements; bankers' acceptance of United States banks; commercial paper rated by two standard rating agencies within the two highest classifications, which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan. Financial institutions eligible for deposit of public funds must maintain an office in Michigan.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC).

The following information classifies deposits and investments by categories of risk as defined by GASB Statement No. 3, "Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements."

The Board authorizes the business office to invest funds with financial institutions that gave the maximum interest rate of return upon receipt of quotes.

The District's deposits are in accordance with statutory authority.

At June 30, 2004, the carrying amount of the School District's deposits was \$3,532,392 and the bank balance was \$3,625,669. \$620,679 of the bank balance was covered by federal depository insurance and \$3,004,990 was uninsured and uncollateralized.

#### 4) <u>DEPOSITS AND INVESTMENTS</u> (Continued)

Investments - The School District's investments are required to be categorized to give an indication of the level of risk assumed by the District at June 30, 2004. Category 1 includes investments that are insured or registered or for which the securities are held by the School District or its agent in the School District's name. Category 2 includes uninsured and unregistered investments for which securities are held by the counterparty's trust department or agent in the School District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or its trust department or agent but not in the School District's name.

Investments, categorized by level of risk at June 30, 2004, are as follows:

	COST	171.	ARKET ⁄ALUE
<u>Category 1</u> Mutual Funds	\$ 39,300	\$	39,300

#### 5) PROPERTY TAXES

The School District levies its property taxes on December 1 and various municipalities collect its property taxes and remit them to the District through February. The delinquent real property taxes of the District are purchased by the County, and delinquent personal property taxes continue to be collected by the municipalities and recorded as revenue as they are collected. The county sells tax notes, the proceeds of which have been used to pay the District for these delinquent real property taxes. These delinquent real property taxes have been recorded as revenue in the current year.

#### 6) RECEIVABLES

Receivables at June 30, 2004, consist of taxes, accounts (fees), intergovernmental grants and interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

A summary of the principal items of intergovernmental receivables (due from other governmental units) follows:

GOVERNMENTAL ACTIVITIES	Α	MOUNT
State Aid	\$	1,475,304
Federal Grants		55,857
Other Grant Programs & Fees		2,500
TOTAL GOVERNMENTAL ACTIVITIES	\$	1,533,661

#### 7) <u>UNEMPLOYMENT COMPENSATION</u>

The District is subject to the Michigan Employment Security Act and has elected the reimbursement method of financing. Under this method, the District must reimburse the Employment Commission for all benefits charged against the District for the year. As of June 30, 2004, the School District had \$4,368 in estimated claims in conjunction with the program.

#### 8) SHORT-TERM DEBT

The District has various options for short-term financing including tax anticipation notes, state aid anticipation notes and lines of credit. The District entered into <u>no</u> short-term financing arrangements during the fiscal year ended June 30, 2004.

#### 9) <u>CAPITAL ASSETS</u>

Capital asset activity for the fiscal year ended June 30, 2004, was as follows:

	BALANCE			BALANCE
	JULY 1, 2003	ADDITIONS	DEDUCTIONS	JUNE 30, 2004
<b>GOVERNMENTAL ACTIVITIES</b>				
<b>Buildings and Improvements</b>	\$13,253,777	\$25,894	\$0	\$13,279,671
Land Improvements	1,254,982	0	(21,284)	1,233,698
Equipment and Furniture	326,418	128,992	0	455,410
Vehicles	1,180,453	28,867	(45,911)	1,163,409
Totals at Historical Cost	\$16,015,630	\$183,753	(\$67,195)	\$16,132,188
Less: Accumulated Depreciation				
<b>Buildings and Improvements</b>	(4,012,803)	(254,676)	0	(4,267,479)
Land Improvements	(301,377)	(30,414)	0	(331,791)
Equipment and Furniture	(246,386)	(52,170)	0	(298,556)
Vehicles	(1,050,357)	(39,481)	(45,911)	(1,043,927)
Total Accumulated Depreciation	(\$5,610,923)	(\$376,741)	(\$45,911)	(\$5,941,753)
GOVERNMENTAL ACTIVITIES	*** *** ***	(********	(4.1	
<u>CAPITAL ASSETS - NET</u>	\$10,404,707	(\$192,988)	(\$113,106)	\$10,190,435

Depreciation expense, when appropriate, was allocated to governmental functions. Depreciation expense that was not allocated appears on the statement of activities as "unallocated". Depreciation was recorded on the statement of activities as follows:

Instruction	\$ 0
Support Services	86,197
Food Service	3,428
Athletics	23,319
Unallocated	 263,797
TOTAL DEPRECIATION EXPENSE	\$ 376,741

#### 10) SELF INSURANCE POOL

The School District participates in a public entity risk pool (self-insurance pool) for its workers' compensation, property and casualty, general liability, and boiler insurance. The pool is through the MASB/SET/SEG and is administered by Corporate Services. The pool provides for reinsurance by various insurance companies at various levels, depending on the coverage. Should the pool experience significant losses in the aggregate, the School District may be required to pay additional monies to the pool. At present, the MASB/SET/SEG has not required additional funds, but rather has issued refunds based on experience gains over experience losses over the last few years. Premiums for the year ended June 30, 2004 were \$109,656 and the School District received a dividend refund of \$36,377.

#### 11) LONG-TERM LIABILITIES

#### A) Prior Period Defeasance

On May 1, 2003, the District defeased certain obligation bonds by placing the proceeds of the new general obligation bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liability for the defeased bonds are not included in the District's government-wide financial statements. On June 30, 2004, \$8,125,000 of bonds outstanding are considered defeased.

#### B) <u>Durant Resolution Package Bonds</u>

Bad Axe Public Schools issued Durant Resolution Bonds on November 24, 1998 in the amount of \$81,784 at the interest rate of 4.7613%. The bonds are a legal obligation of the school district but the annual State of Michigan appropriation is the only revenue source for making the annual debt service payments on the bonds. If the legislature fails to appropriate the bonds, the district is under no obligation for payment. The balance at June 30, 2004 was \$52,250. The legislature refinanced the repayment schedule during the year ended June 30, 2003.

#### C) Debt service requirements at June 30, 2004, were as follows:

YEAR ENDED			
JUNE 30,	BONDS	INTEREST	TOTAL
2005	\$300,000	\$303,052	\$603,052
2006	323,959	298,836	622,795
2007	329,146	292,248	621,394
2008	339,345	283,927	623,272
2009	349,552	273,670	623,222
2010-2014	1,965,248	1,186,407	3,151,655
2015-2019	2,335,000	783,435	3,118,435
2020-2023	2,235,000	250,915	2,485,915
<u>TOTAL</u>	\$8,177,250	\$3,672,490	\$11,849,740

#### D) Changes in Long-Term Liabilities

	BALANCE			BALANCE	AMOUNT DUE
Governmental Activities:	JULY 1, 2003	ADDITIONS	DEDUCTIONS	JUNE 30, 2004	IN ONE YEAR
Durant Bonds	\$52,250	\$0	\$0	\$52,250	\$0
2003 Refunding Bonds	8,510,000	0	385,000	8,125,000	300,000
Compensated Absences	152,108	82,895	0	235,003	0
Total Governmental	ФО 71 4 2 50	#0 <b>2</b> 005	Φ20.5.000	ФО 412 252	#200 000
<u>Activities</u>	\$8,714,358	\$82,895	\$385,000	\$8,412,253	\$300,000

The payment dates of sick days payable are undeterminable.

The interest expenditures on long-term obligations for the year were \$359,092.

#### 12) <u>INTERFUND BALANCES</u>

Interfund balances at June 30, 2004 consisted of the following:

	DUE FROM	VI	
		SPECIAL	
2	GENERAL	REVENUE	
E	FUND	FUND	TOTAL
General Fund	\$0	\$41,935	\$41,935
Debt Retirement Fund	300	0	300
Trust & Agency Fund	13,992	0	13,992
<u>TOTAL</u>	\$14,292	\$41,935	\$56,227

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting systems, and (3) payments between funds are made.

#### 13) INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2004, consisted of the following:

2 TRANSFERS FI	ROM
NSFER.	GENERAL FUND
Special Revenue Fund	\$218,802

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them (2) move receipts restricted to debt service from the funds collecting the receipts to the fund servicing the debt as debt payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

#### 14) <u>DEFINED BENEFIT PENSION PLAN</u>

#### Plan Description

The School District participates in the Michigan Public School Employees' Retirement System (MPSERS), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the School District. The MPSERS provides retirement, survivor and disability benefits to plan members and their beneficiaries. The MPSERS issues a publicly available financial report that includes financial statements and required supplementary information for the MPSERS. That report may be obtained by writing to the MPSERS at 7150 Harris Drive, PO Box 30673, Lansing, MI 48909-8103.

#### 14) <u>DEFINED BENEFIT PENSION PLAN</u> (Continued)

#### **Funding Policy**

Employer contributions to the MPSERS result from the implementing effects of the School Finance Reform Act. Under these procedures, each school district is required to contribute the full actuarial funding contribution amount to fund pension benefits, plus an additional amount to fund retiree health care benefit amounts on a cash disbursement basis. The pension benefit rate totals 12.99 percent for the period July 1, 2003 through September 30, 2003 and 12.99 percent for the period October 1, 2003 through June 30, 2004 of the covered payroll to the plan. Basic plan members make no contributions, but contribute to a member investment plan (MIP) at rates ranging from 3 percent to 4.3 percent of gross wages. The School District's contributions to the MPSERS pension plan for the years ended June 30, 2004, 2003 and 2002 were \$832,608, \$806,688 and \$749,136, respectively.

#### Postemployment Benefits

Under the MPSERS Act, all retirees participating in the MPSERS pension plan have the option of continuing health, dental and vision coverage. Retirees having these coverages contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent of the monthly premium amount for the health, dental and vision coverages. Required contributions for postemployment health care benefits are included as part of the School District's total contribution to the MPSERS pension plan discussed above.

#### 15) RISK MANAGEMENT

The District is exposed to various risks of loss in conducting its operations, from property and casualty, theft, damage to various tort and liability claims and workman's compensation claims. The District limits its exposure to such claims through its participation in and payments of premiums to SET-SEG, Inc. Insurance Trust. The pool maintains a loss fund and is also required by the terms of the participation agreement to obtain insurance and reinsurance as necessary.

The terms of the participation agreement with the pool indicate that, should losses of the pool incurred in a given coverage period exceed the loss fund and the aggregate excess reinsurance, the fund may access its member districts on a pro-rata basis to cover excess losses. In past years the loss fund has exceeded the amount necessary to maintain prudent loss reserves, resulting in annual premium refunds to member districts. The District's management believes that participation in this pool provides sufficient coverage to protect the District from significant adverse financial impact.

#### 16) GOVERNMENTAL REGULATION

Substantially all of the school district's facilities are subject to federal, state and local provisions regulating the discharge of materials into the environment. Compliance with these provisions has not had, nor does the school district expect such compliance to have, any material effect upon the capital expenditures, net revenue in excess of expenditures or financial condition of the school district. Management believes that its current practices and procedures for the control and disposition of such wastes comply with applicable federal and state requirements.

#### 17) CONTINGENCIES AND COMMITMENTS

The District participates in a number of federally assisted grant programs. These programs are subject to program compliance audits. The audits of these programs for and including the year ended June 30, 2004, have been conducted and have been reported in this audit report. However, the compliance audit reports have not yet been accepted by the grantors. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time; although the District expects such amounts, if any, to be immaterial.

## REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education of Bad Axe Public Schools

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Bad Axe Public Schools, as of and for the year ended June 30, 2004, which collectively comprise the Bad Axe Public Schools' basic financial statements and have issued our report thereon dated July 27, 2004. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Compliance

As part of obtaining reasonable assurance about whether Bad Axe Public Schools' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance that we have reported to management of Bad Axe Public Schools, in a separate letter dated July 27, 2004.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered Bad Axe Public Schools' internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting that we have reported to management of Bad Axe Public Schools, in a separate letter dated July 27, 2004.

This report is intended solely for the information and use of the audit committee, management, Board of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

## REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Board of Education of Bad Axe Public Schools

#### Compliance

We have audited the compliance of Bad Axe Public Schools with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2004. Bad Axe Public Schools' major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Bad Axe Public Schools' management. Our responsibility is to express an opinion on Bad Axe Public Schools' compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Bad Axe Public Schools' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Bad Axe Public Schools' compliance with those requirements.

In our opinion, Bad Axe Public Schools complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2004. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as item 2004-1.

#### Internal Control Over Compliance

The management of Bad Axe Public Schools is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Bad Axe Public Schools' internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Bad Axe Public Schools Page 2 July 27, 2004

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level, the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the audit committee, management, Board of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

#### BAD AXE PUBLIC SCHOOLS- BAD AXE, MICHIGAN SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2004

#### 2004-1) Title I Grants to Local Educational Agencies; CFDA 84.010

<u>Specific Requirement</u>: Allowable Cost/Cost Principles.

Condition: The District did not complete the time certifications required for employees working

solely on a single Federal award or cost objective.

<u>Criteria</u>: The cost principles of OMB Circular A-87 require, "Where employees are expected

to work solely on a single Federal award or cost objective, charges for their salaries and wages will be supported by periodic certifications that the employees worked solely on that program for the period covered by the certification. These certifications will be prepared at least semi-annually and will be signed by the employee or supervisory official having first hand knowledge of the work performed by the

employee".

Effect of Condition: Salaries and wages charged to the program could be disallowed.

<u>Cause of Condition</u>: The cause of the condition was the lack of knowledge of the requirement of the

Circular in regards to the need for time certification.

Recommendation: The District should develop a standard time certification form and have the

appropriate employee or other supervisory employee complete the certifications every

six months.

Management Response: The District will develop a standard time certification form and have the appropriate

employee or other supervisory employee complete the certifications every six months.

Questioned Cost: None.

#### STATUS OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS

There were no prior year findings or questioned costs.

Lewis & Knopf, CPAs, P.C.

"Serving You with Trust and Integrity"

July 27, 2004

To the Board of Education of Bad Axe Public Schools

In planning and performing our audit of the general purpose financial statements of Bad Axe Public Schools for the year ended June 30, 2004, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control structure. However, we noted certain matters involving the internal control structure and its operation that we consider to be reportable conditions under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control structure that, in our judgment, could adversely affect the Bad Axe Public Schools' ability to record, process, summarize and report financial data consistent with the assertions of management in the general purpose financial statements.

The following items of immaterial internal control or administrative consideration came to our attention.

#### **CURRENT YEAR FINDINGS**

1. Budgets and Budgetary Accounting

P.A. 621 of 1978, Section 18 (1), as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated. During the year ended June 30, 2004, Bad Axe Public Schools incurred expenditures in certain budgetary funds which were in excess of the amounts appropriated.

Trust and Agency

Deficit account balances should be reviewed by management to determine that the groups will have sufficient future receipts to obtain a positive account balance.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses as defined above. However, none of the reportable conditions described above is believed to be a material weakness.

This report is intended for the information of Bad Axe Public Schools' Board of Education and management and should not be used for any other purpose. This restriction is not intended to limit the distribution of this report, which is a matter of public record.
